Dear Mr. Carpodinis:

Please find enclosed all of the information you requested on your recent site inspection at the Wabash mill. This includes a diagram of our active wells with well depths, copies of both our active and our proposed NPDES permits, and a copy of our coal-fired boiler operation permit. The name of the second landfill that has received our asbestos is Randolph Farms in Modoc, Indiana. I mistakenly recollected that that landfill was in Lafayette, but discovered that I had been wrong when I checked our records.

Please let me know if you have anymore questions.

Sincerely,

CONTAINER CORP. OF AMERICA
